

Assignment 05

Use HTML tags & CSS properties to design a 5-page site with consistent styling and link all pages

1. Home Page
2. About Us Page
3. Courses Page
4. Gallery Page
5. Contact Us Page

Task:

Your task is to design a 5-page website using HTML and CSS, incorporating properties such as width, height, float, background-color, and color to maintain consistent styling across all pages. Each page should have a cohesive visual identity and layout.

Instructions:

1. Create HTML and CSS files for each page of the website.
2. Test the website by opening each page in a web browser to ensure consistency in styling and layout.

If you have any questions or need clarification on any aspect of the assignment, feel free to ask for assistance.

Happy coding!
